ROCK / POP

With as much energy and toughness of all the rap community's pit bulls combined, while maintaining the elegance and beauty of a Swan Lake performance, the members of Orlando based Rory - Jeremy Menard, Chris Moore, Joel Setzer, Marc Ispass, and Jordan Shroyer - arrive together with the goal of creating a musical aura not only to be heard, but to be felt. Multi-instrumentalists, Rory incorporates live cello, upright bass, violin, and haunting saxophones with melodic guitar-playing, dreamy vocals, and decorative rhythm. Juxtaposing heartfelt screams and rhythmic barrages, with infectious harmonies and stuck-in-your-head melodies, Rory lights up a new facet to the ever-expanding rock and roll genre. Fans of Recover, The Used, Thrice, and Brand New will appreciate Rory!

"Just when you thought the originality was being erased from the genre, Rory strikes just at the right time. Rory takes a trend that has faded into plain and generic and twisted it back into something fresh and new. Bands will be wishing they had thought to add these sounds and stylings to music. Labels will be wishing they had signed them. Meaning and hope have been reborn." - Jared Kaufman - Absolutepunk.net

"Rory's debut EP is not your standard 'Band's First Release'. It is full of well structured melodies, creative production, and hooks that definitely hold their place in your memory. Fans of Taking Back Sunday and Midtown will eat this up."

- Graham and Bob - Smartpunk.com
